

KIDS need
future

Review 2016

www.kidsneedfuture.de

kidsneedfuture and cooperation partners 2016

Mission Statement:

- **The overall objective is to give underprivileged children the opportunity to achieve an independent future by providing assistance for education and general wellbeing**

Characteristics:

- Funds are designated for special projects based on the donor's values and on the ideas of the benefitting organization
- kidsneedfuture acts as the liaison between donors and benefitting organizations
- personal relationship between members of kidsneedfuture and benefitting organization
- 100% voluntary work – no administration

Implementation through:

- Assistance for **education** (sponsorships, ...)
- Assistance for providing **daily needs** (food, medical, ...)
- **Structural projects** (improvement of facilities / equipment, help-to-help-yourself-projects, ...)

kidsneedfuture and cooperation partners 2016

Cooperation partners:

- **Karai Children's Vocational Centre Foundation, Kenya (KCVC)**
provides care, shelter and education to street children and vulnerable children and prepares them for a self-sustained life in the Kenyan society
- **Stiftung Kenia-Hilfe Schwäbische Alb, Germany**
is the main sponsor of Karai Children's Vocational Centre and provides a major part of the general running costs of the organization

Close Cooperation
among and with the
German and Kenyan
Organisations

Designated usages 2016 (I/II)

Details designated usages for KCVC:

- **Education:** through the **kidsneedfuture education fund**, 17 children were able to join secondary school / college
9.810€
- **Infrastructure:**
30 **new mattresses** with integrated bedwedding cover were bought
teaching materials (exercise books) for all 282 primary students were bought and the **computer course** was re-initiated
2.400€
- **Assistance of food programme:** through the **kidsneedfuture breakfast fund** all 72 home children receive a balanced diet with bread and fruits alongside the common porridge
1.000€

Designated usages 2016 (II/II)

- **Micredits for staff members:** all staff members have the possibility -under to be met requirements- to get a loan to afford for instance medical operations, school fees for family members or to be able to start a small business, that sustains family members. Through a special donation from kidsneedfuture, a revolving fund was set up. Through that fund staff members can access loans up to a maximum of twice their salary. These loans have to be paid back including 5% interest according to a strict system of rules, defined by a committee formed out of KCVC staff members and confirmed by kidsneedfuture representatives. Since banks in Kenya offer only credit conditions that are not affordable for the majority of Kenyan workers, this fund contributes to **empowerment (help to help yourself)** and strengthens the identification of staff members with the organization

2.400€

Impressions

2 out of the 17 kidsneedfuture education fund beneficiaries, both in secondary school:
Kevin Kurui and John Karanja

New mattresses

Breakfast fund and
Microcredit fund.

John Chege, cook at KCVC,
took a loan in December:
„I took a loan of 135€*,
that will help me to take my
child to college“

*15.000KSH \approx 135€

Insight general developments at KCVC

- Establishments of the **new management team** lead by Chege
- **Growing ratio of self-sustainability** versus donations from 17% to 29% (Karai self-generated income to total income): Income generating projects have doubled their income compared to the previous year (total amount of 56.000€)
- The **primary school acquired 88 new students**, the total number of students by the end of 2016 was 282. All external students pay school fees and therefore bring an important contribution to self-generated income.
- A total number of **15 students finished their secondary education last year**. They will now continue the programme with vocational training or college. The **two college graduates funded by the kidsneedfuture education fund** are both in the process of job entry. Both have volunteered with the home in various ways (teaching of baby class, assistance of re-integrated secondary students, assistance of administration)
- By the **end of 2016/beginning of 2017 17 new children** (street children and orphans) joined the **home**
